## Department of Health Publication Update

Following the recent introduction of updated advice on alcohol and pregnant women, I am writing to clarify the latest position on these materials:

### **277507 How much is too much: when you're pregnant**

All stocks should be withdrawn (national, local and online); please advise your clients accordingly. An updated leaflet will be available later in the summer.

### **277508 Credit Card Dispenser and Cards & 277508/Cards**

These items have now been withdrawn and will be updated. Please destroy any existing stocks of these items and advise your clients accordingly.

### **277505 How much is too much: Drinking, you and your mates (under 25s) & 277506 How much is too much: Drinking and you (adults/over 25s)**

Both titles are no longer available to order from Department of Health and the online versions have been withdrawn. Both titles are currently being updated.

### **Carnell Bell-Smith**
